BIO-WAVE MAX™

SPORE-BASED SOIL CONDITIONER

Guaranteed Analysis:

- Manganese (Mn).....Min. 0.5%
- Sulfur (S).....Min. 0.5%
- Iron (Fe).....Min. 0.25%
- Amino Acid Complex.....Min. 0.004%

Components Derived From:

- Manganese Sulfate, Iron Sulfate, Potassium Humate

Also Contains Non-Plant Food Ingredient(s):

- Microorganisms: 10% (132 million cfu/ml)
- Molasses: 5%
- Humate: 0.05%
- Kelp: 0.25%

Product and Storage Information:

- **Keep out of direct sunlight when storing.**
- Store between 32° F and 110° F.
- Use product as directed. Use proper safety equipment. Keep out of reach of children. Do not ingest.

Product Description:

- Bio-Wave Max is an advanced liquid biological containing ocean minerals, essential nutrients, humate, and spore-based microbes.
- Non hazardous.
- Suitable for organic production and use.
- Approximately 9.0 lbs per gallon.

Application Instructions:

- Mix well before use.
- Compatible with majority of inputs; Jar test to confirm solubility
- **Typical application is 1 quart per acre, twice per year (pre plant and in-season or post cutting)**
- High-value or unique needs: Increase to 2-4 quarts
- **Can be broadcast, applied in furrow, via foliar spray, via drip irrigation, or your preferred application method**
- Land-based applications: Dilute in 10 gallons, minimum
- Aerial-based applications: Dilute 1:3 ratio, minimum
- Maximum annual application rate: 2 gallons per acre

RESTRICTIONS: Micronutrient deficiency must be documented by soil or tissue testing or other documented and verifiable method as approved by a certifying agent. Must not be used as an herbicide, defoliant or desiccant.
